Preface

Short biography

Martin Lohse began his education at the Musical Science Institute in Copenhagen (1990–92). In 1995 he was admitted to the Royal Danish Academy of Music, Copenhagen, where he studied composition and music theory as a pupil of Hans Abrahamsen and Niels Rosing-Schow. In 2000 he started a postgraduate course in composition and in 2004 he had his debut from the Royal Academy of Music. In 2003, he received the 3-year Grant from The Danish Arts Foundation. Besides composing acoustic and electro acoustic music, he does abstract paintings – usually with a clash of disintegration and pure and clear colours.

Music

In my music, I try to encircle small musical moments and atmospheres, which can timeless progress and unfold. The collocation and collision of a “pure” and clear music with a disintegrated and multi-layered music is one of the main characteristic of my music. In the heart, the music often emanate a harmonic and melodic reminiscence of past experiences in glints or longer periods which combined with a floating sensation (accelerando, decelerando etc.) creates a music with the organic form as one of its main foundations.

Romantic and, to some extent, Baroque music are key elements in the music of Martin Lohse. *Smoke, Koncert, 8 Momenti Mobile...* and *In remembrance...* all have a reminiscence of the romantic style: Small motives and longer themes within a gliding tonality, mixed with a floating sensation of times, sometimes with long and continues accelerandos or decelerandos and at other times with tempos slowly departing from each other. The Baroque style is clear in a piece like *Concerto in tempi*, but it's also a part of works like *In remembrance... In liquid...* and *Entity*. The music has some polystylistic elements, not in the form of big clashes of different styles, but more in the sense of polytonality including polytempoes, f. ex in the work *In liquid...* for accordion and piano, where the accordion in the 1st movement starts slowly together with the piano, but gradually makes a forceful accelerando toward a brilliant baroque figure in a direct collision with the piano, which keeps the slow steady music from the start.

New Simplicity is an essential part of his music, with a direct input from his teacher Hans Abrahamsen, but also evolved with the meeting with Arvo Pärt and his music. It is used to concentrate the music, finding the essence in a motive, a harmonic progression or in a structural complex created by the composer. In works like *Slow movement, Sorrow* and 4th movement of *In liquid...* for violin and piano the minimalism is transformed or rather reduced to a nearly pure transcendental form.

Mobile

A musical technique developed by Martin Lohse in 2009 where he combines the polystylistic elements with a simple repeating sequence of chords, creating a music with both baroque and romantic elements, all in different tempos but with no or very few dissonances.

Silenzio

Solo violin, solo viola or solo cello

Sick on my journey,	On a journey, ill:
only my dreams will wander	my dream goes wandering
these desolate moors	over withered fields

Silenzio is inspired by the haiku poem above by the old master Basho, here reproduced in two versions.

It is his last poetry - his death poem.

The mood is somewhere between dream and reality, the living and the dead where consciousness wanders by unknown paths.

This release includes three versions for solo violin, solo viola and solo cello.

Silenzio

Solo violin, solo bratch eller solo cello

Jeg rejser
syg

Stille over
visne marker

Strejfer
mine drømme

Værlet er inspireret af ovenstående haiku-digt af den gamle mester Basho, her gengivet fra Hans-Jørgen Nielsen: *HAIKU – en introduktion og 150 gendigtninger*.

Det er hans sidste digt - hans dødsdigt.

Stemningen er et sted imellem drøm og virkelighed, det levende og det døde hvor bevidstheden vandrer af ukendte stier.

Denne udgivelse indeholder tre versioner for solo violin, solo bratch og solo cello.
